

Dear citizens in Münster,

On September 13th, 2020, the people of Münster will vote for their City Councillors and for the Mayor.

Why is it IMPORTANT that YOU also go and vote?

The newly elected Councillors will decide over the next five years about a lot of things that could affect your everyday life.

For example the construction of new apartments, the price of bus tickets, accommodation for older people, the creation and maintenance of playgrounds, sports facilities, and so on.

Who can vote?

All who are registered in Münster, are at least 16 years old, and are either German or other EU nationals.

MÜNSTER BELONGS TO US ALL!

People with a migration background and others who are socially excluded, such as those threatened with poverty, have so far hardly participated in this important election in the past. Therefore, their needs and wishes have not really been taken onto account in the City Council.

We, the **COLOURFUL AND INTERNATIONAL MÜNSTER LIST (MÜNSTER LISTE BUNT UND INTERNATIONAL)** want **EVERYONE** to be represented and to feel at home here!

Our goals:

- Integration should take place at all levels
- Vacant positions at all levels in the city administration should be given to people with a migration background, based upon what percentage they form of the population.
- Free and friendly advice and support should be available from the City authorities
- More affordable housing should be available for everyone
- Travelling by bus should be cheaper, cycling should be made easier
- More autonomy and a greater say in politics
- No further privatizing of services relating to basic and vital needs
- Münster can do more and should do more, for example in the reception of refugees, traffic policy, and climate protection

Please go and vote on September 13th* and give us your voice so we can achieve these goals!

(*Postal voting from August 18th directly in the VHS forum, Aegidiimarkt 2, or by post)

The ‚Münster Liste Bunt Und International‘ is List No. 10
